University ranking	−0.007	0.002	−3.941	8.13×10^{-5}***
Year of first publication	−0.018	0.007	−2.607	0.009**
Number of citations	-1.78×10^{-5}	4.91×10^{-6}	−3.617	2.98×10^{-4}***
Number of publications	-2.18×10^{-4}	9.35×10^{-4}	−0.233	0.816
Gender (male) × university ranking	0.002	2.31×10^{-3}	0.754	0.451
Gender (male) × academic rank (Associate)	−1.324	0.803	−1.649	0.099
Gender (male) × Academic rank (Professor)	−0.512	0.718	−0.713	0.476
Gender (male) × *h*-index	−0.021	7.16×10^{-3}	−2.878	0.004**

*, $P < 0.05$; **, $P < 0.01$; ***, $P < 0.001$.

Table S4: Factors affecting faculty member's likelihood of having a Wikipedia biography (logistic regression: AICc-selected main effects model)

Variable	Estimate (β)	Std. Error	95% Confidence Interval	#Models
Intercept	31.875	13.986	[4.457, 59.293]*	2
Gender (male)	−1.292	0.126	[−1.540, −1.044]*	2
h-index	0.056	0.005	[0.046, 0.066]*	2
Academic rank (Associate Professor)	0.583	0.394	[−0.189, 1.355]	2
Academic rank (Professor)	1.439	0.368	[0.718, 2.160]*	2
University ranking	−0.006	0.001	[−0.009, −0.004]*	2
Year of first publication	−0.018	0.007	[−0.032, −0.005]*	2
Number of citations	-2.12×10^{-5}	4.76×10^{-6}	$[-3\times10^{-5}, -1\times10^{-5}]$*	2
Number of publications	-4.31×10^{-4}	9.35×10^{-4}	[−0.002, 0.001]	1

Conditional averages across the best 2 models are reported.
*, The 95% confidence interval does not include 0.

Table S5: Factors affecting faculty member's likelihood of having a Wikipedia biography (logistic regression: AICc-selected main effects plus three 2-way interactions model)

Variable	Estimate (β)	Std. Error	95% Confidence Interval	#Models
Intercept	31.075	14.032	[3.567, 58.582]*	5
Gender (male)	−0.215	0.610	[−1.410, 0.981]	5
h-index	0.070	0.007	[0.056, 0.083]*	5
Academic rank (Associate Professor)	0.746	0.552	[−0.336, 1.827]	5
Academic rank (Professor)	1.366	0.471	[0.443, 2.289]*	5
University ranking	−0.006	0.001	[−0.009, −0.004]*	5
Year of first publication	−0.018	0.007	[−0.032, −0.004]*	5
Number of citations	-1.78×10^{-5}	4.88×10^{-6}	$[-3\times10^{-5}, -8\times10^{-6}]$*	5
Number of publications	-1.81×10^{-4}	9.35×10^{-4}	[−0.002, 0.002]	1
Gender (male) × university ranking	0.002	0.002	[−0.003, 0.006]	2
Gender (male) × academic rank (Associate)	−1.309	0.802	[−2.882, 0.264]	2
Gender (male) × Academic rank (Professor)	−0.500	0.718	[−1.907, 0.906]	2
Gender (male) × *h*-index	−0.020	0.007	[−0.033, −0.007]*	5

Conditional averages across the best 5 models are reported.
*, The 95% confidence interval does not include 0.

Table S6: Factors affecting Wikipedia biographies' number of views (AICc-selected ANCOVA model)

Variable	Estimate (β)	Std. Error	95% Confidence Interval	#Models
Intercept	−4622.755	71758.66	[−136425.4, 145670.9]	5
Gender (male)	938.95	1.927	[−2848.6, 4726.6]	1
University ranking	−14.363	16.929	[−47.643, 18.917]	1
Year of first publication	−20.229	94.721	[−206.432, 165.975]	1
Number of citations	0.011	0.049	[−0.0856, 0.107]	1
Number of publications	24.506	8.408	[7.978, 41.034]*	5

Conditional averages across the best 5 models are reported.
*, The 95% confidence interval does not include 0.

Table S7: Factors affecting Wikipedia biographies' number of edits (AICc-selected ANCOVA model)

Variable	Estimate (β)	Std. Error	95% Confidence Interval	#Models
Intercept	1541.048	680.772	[206.760, 2875.534]*	1
Year of first publication	−0.759	0.341	[−1.428, −0.091]*	1
Number of citations	7.67×10^{-4}	1.78×10^{-4}	$[4.18\times10^{-4}, 1.12\times10^{-3}]$*	1
Number of publications	0.085	0.041	[0.004, 0.166]*	1

Results for the best model are reported.
*, The 95% confidence interval does not include 0.

Table S8: Factors affecting Wikipedia biographies' number of edits per year (AICc-selected ANCOVA model)

Variable	Estimate (β)	Std. Error	95% Confidence Interval	#Models
Intercept	23.805	5.765	[12.474, 35.135]*	6
Gender (male)	−0.703	1.651	[−3.947, 2.542]	1
h-index	−0.022	0.054	[−0.129, 0.085]	2
Academic rank (Associate Professor)	−15.468	6.583	[−28.405, −2.530]*	6
Academic rank (Professor)	−15.161	5.759	[−26.479, −3.842]*	6
University ranking	0.026	0.015	[−0.004, 0.057]	5
Number of publications	0.013	0.012	[−0.010, 0.036]	2

Conditional averages across the best 6 models are reported.
*, The 95% confidence interval does not include 0.

Table S9: Factors affecting Wikipedia biographies' length (AICc-selected ANCOVA model)

Variable	Estimate (β)	Std. Error	95% Confidence Interval	#Models
Intercept	709.922	104.831	[504.085, 915.759]*	8
Gender (male)	−327.255	76.199	[−447.017, −177.493]*	8
h-index	5.574	2.645	[0.380, 10.767]*	6
University ranking	−0.723	0.686	[−2.071, 0.626]	3
Number of citations	0.004	0.002	[−0.001, 0.008]	4
Number of publications	1.070	0.567	[−0.045, 2.184]	5

Conditional averages across the best 8 models are reported.
*, The 95% confidence interval does not include 0.
